

Comptroller Mychajliw Releases Statement on FEMA Ruling

(Buffalo) – I am proud to have stood side by side with the County Executive in February to fight for taxpayers in a bi-partisan manner to protect them from the federal government. It was outrageous for the federal government to try and hurt taxpayers by forcing Erie County to pay back \$48.5 million.

This is what people want from their elected leaders, to put politics aside and stand up for them. Public servants from all parties and from all levels of government worked together to bring about a positive outcome for Erie County.

Had the county been forced to pay this back, the federal government would have decimated our unassigned fund balance, basically cutting it in half.

Erie County's unassigned fund balance is approximately \$88,332,000. The Erie County Legislature is required to approve any appropriation, and they are back in session on Thursday, September 12th, 2013.

The good news is that the Erie County Fiscal Stability Authority (ECFSA, better known as the Control Board) recently returned \$720,000 of their surplus funds to the county. The Office of Erie County Comptroller also recently estimated a \$3.9 million pension savings from the State of New York.

COUNTY OF ERIE
STEFAN I. MYCHAJLIW
COMPTROLLER

February 27th, 2013

Honorable Timothy R. Hogues
Erie County Legislature Finance and Management Committee Chairman
92 Franklin Street
Buffalo, New York 14202

Dear Legislator Hogues:

I am reaching out to the Finance and Management Committee concerning the recent audit conducted by the Office of Inspector General (OIG), United States Department of Homeland Security (DHS), as it pertains to the \$48 million they claim the Federal Emergency Management Agency (FEMA) should recover from Erie County as it relates to reimbursements from the "October Surprise Storm" in 2006.

Our office understands the issues that were addressed in their audit occurred under the administration of former Erie County Executive Joel Giambra.

Their audit highlights perceived deficiencies pertaining to the Giambra administration's management of the 2006 storm cleanup. Their audit findings stated:

- Erie County did not comply with Federal Grant regulations and FEMA guidelines in awarding contracts
- FEMA reimbursed Erie County \$9 million for inadequately supported costs
- Erie County claimed to have lost numerous project records
- Erie County improperly charged administrative costs as direct costs
- FEMA questions \$48,465,416 of ineligible and unsupported costs
- Erie County improperly included duplicative costs for reimbursement
- Lack of open and full contracting competition

I will stand with the Legislature and County Executive Poloncarz to work with our federal congressional delegation to protect Erie County taxpayers and determine a solution that is beneficial to all parties.

Should you determine to hold a hearing on this matter before your committee, I will be happy to testify and answer questions to help in your efforts.

While DHS released the findings of their audit on January 29th, 2013, our office was just made aware of their report. I do not have information on whether or not the administration notified the Erie County Fiscal Stability Authority or Legislature.

Time is of the essence. According to the results of the DHS audit Erie County must prepare responses to their findings within 90 days of January 29th, 2013.

The Legislature, County Executive, and Control Board have my full support and assistance in resolving this issue. Let us work together with all our partners in county government to limit or eliminate the damage that could be done from this \$48 million recovery claim from the federal government.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Stefan Mychajliw', with a long horizontal flourish extending to the right.

Stefan I. Mychajliw
Erie County Comptroller
